ATTN: Chemical Right to Know-HPV Chemical Challenge Program
American Chemistry Council Health, Environmental, and Regulatory Task Group
Registration Number

Dear Administrator Horinko:

The American Chemistry Council Petroleum Additives Panel (Panel) Health, Environmental, and Regulatory Task Group (HERTG) wishes to submit its revised test plan and robust summaries for the "*Dithiophosphate Alkyl Esters*" category of chemicals under the Environmental Protection Agency's High Production Volume (HPV) Chemical Challenge Program.

The Dithiophosphate Alkyl Esters test plan and robust summaries were submitted for review and public comment on November 11, 2002. Following submission of the test plan and robust summaries, an error in the chemical name provided for the test material was identified. The attached summaries have been revised to provide the correct chemical name. The HERTG regrets the error and any confusion it may have caused.

If you have any questions, please do not hesitate to contact the Manager for the HERTG, Sarah Loftus McLallen, at 703-741-5607 (telephone), 703-741-6091 (telefax) or sarah_mclallen@americanchemistry.com (email).

Sincerely yours,

Attachment: Group 4 – Dithiophosphate Alkyl Esters Robust Summary Document
